SALARY RELATIVITIES, 1975-76 TO 1983-84

This monograph has been prepared by the Education Relations Commission as one of the services to parties involved in negotiations as outlined in the *School Boards and Teachers Collective Negotiations Act*.

The purpose of this publication is:

> to provide current and accurate information in a neutral capacity, to assist the parties during various stages of the negotiation process.

While salary and compensation items are significant components of the bargaining process, they are not reflective of the entire range of contractual aspects which when finalized, constitute an important dimension of the total relationship between employer and employee. Although this publication focuses upon these financial areas, this is not to suggest that factors such as the nature of working conditions or job security are unimportant results of negotiations. For this reason, the reader may want to examine other Commission publications, particularly those in the Clause File series, in order to achieve a broader perspective from which to consider the matter of salary relativities.

This monograph is made available on a request basis to the parties and others expressing an interest.

Enquiries concerning this monograph or requests for further information assistance should be addressed to:

Introduction

As its name suggests, "Salary Relativities, 1975-76 to 1983-84" provides an extensive variety of comparison statistics among teacher salaries and between teacher salaries and other measures over a number of years.

For most of the analyses, the base year employed is 1975-76 which represents the initial year of the Commission's operation and of the commencement of bargaining in accordance with the School Boards and Teachers Collective Negotiations Act. The 1975-76 year saw virtually all situations involved in negotiations and, to this point in time, remains the most active year in this sense.

Summary of Contents

This Monograph is divided into nine (9) parts. The following offers an explanation of the contents of each part.

Part	Contents
1	Table 1: Consumer Price Index "All Items", Canada-1971 = 100
	a) September to August 12 month average value for 1975-76 to 1982-83; percent increase over previous 12 month period.
	b) September value for 1975 to 1983; percent increase over previous September.
2	Table 2: Average Actual University Recruiting Rates for Honours, Pass Arts and Engineering Degrees
	a) average monthly rates for 1975 to 1983,
	b) percent increase in monthly rates over previous year.
	Table 3: Average Weighted On-Grid Salaries at Year 0 for

Categories A2 and A4/Groups 2 and 4 (employing end rates)

a) average weighted salary figures for Elementary, Secondary, R.C.S.S. and all agreement types combined for the years 1975-76 to 1983-84,

b) percent increase over previous year.

3 Table 4: Industrial Composite (Average Weekly Earnings) - Province of Ontario

a) September to August 12 month average for 1975-76 to 1982-83; percent increase over previous 12 month period,

b) September figure for 1975 to 1983; percent increase over previous September.

4 Table 5: Average Weekly Earnings (Industrial Composite) - Ontario Counties/Districts

a) September to August 12 month average for 1977-78 to 1982-83; percent increase over previous 12 month period*,

b) September figure for 1977 to 1982; percent increase over previous September.

c) the Counties/Districts are as follows:

Algoma	Hastings	Parry Sound
Brant	Huron	Peel
Bruce	Kenora	Perth
Carleton	Kent	Peterborough
Cochrane	Lambton	Prescott & Russell
Dufferin	Lanark	Prince Edward
Dundas	Leeds	Rainy River
Durham	Lennox & Addington	Renfrew
Elgin	Lincoln	Simcoe
Essex	Manitoulin	Sudbury
Frontenac	Middlesex	Thunder Bay
Glengarry	Muskoka	Timiskaming
Grenville	Nipissing	Victoria
Grey	Norfolk	Waterloo
Haldimand	Northumberland	Welland
Haliburton	Ontario	Wellington
Halton	Oxford	Wentworth
		York

*Due to discontinuation of the calculation of the Industrial Composite on a County/District basis subsequent to March, 1983, both the dollar amount and percentage increase employed for 1982-83 are based upon a seven-month average (September-March).

5 Table 6: Salary and Total Compensation Comparisons between Individual Negotiating Situations and Provincial Averages, 1975-76 to 1983-84

a) annualized Category A4/Group 4 maximum:

- for individual negotiating situation
- number of situations with higher Category A4/Group 4 maximum,
- number of situations available for comparison,
- number of years to reach Category A4/Group 4 maximum,
- within agreement type the average provincial Category A4/Group 4 maximim,
- percent negotiating situation's Category A4/Group 4 maximum is of provincial average.

b) if split salary grid, Category A4/Group 4 end rate maximum

c) average weighted on-grid salary:[1]

- for individual negotiating situation,
- within agreement type for the province,
- percent negotiating situation's average is of provincial average.

d) average total compensation per teacher:

- for individual negotiating situation,
- within agreement type for the province,
- percent negotiating situation's average is of provincial average.

Total compensation consists of the school board's expenditure for salaries, allowances, and benefits provided to its teaching staff. Allowances to include those for: positions of responsibility, cost-of-living, related and part-years experience, special education and graduate degrees. Benefits to include: OHIP, extended health care plans, semi-private coverage, drug plans, dental plans, long-term disability plans, group insurance plans, unemployment insurance premiums, workmen's compensation and Canada pension.

Data in this Part are grouped by agreement type and within agreement type are in alphabetical order by negotiating situation.

6 Table 7: Salary and Total Compensation Comparisons between Individual Negotiating Situations and Regional Averages, 1975-76 to 1983-84

[1]Teacher qualifications and years of experience are important influences upon the average weighted on-grid salary. Although not included in this publication,

a) annualized Category A4/Group 4 maximum:

- for individual negotiating situation
- number of situations with higher Category A4/Group 4 maximum,
- number of situations available for comparison,
- number of years to reach Category A4/Group 4 maximum,
- within agreement type the average regional Category A4/Group 4 maximum,
- percent negotiating situation's Category A4/Group 4 maximum is of regional average.

b) average weighted on-grid salary:

- for individual negotiating situation,
- within agreement type for the region,
- percent negotiating situation's average is of regional average.

c) average total compensation per teacher:

- for individual negotiating situation,
- within agreement type for the region,
- percent negotiating situation's average is of regional average.

Data in this Part are grouped by agreement type, within agreement type by Ministry of Education Region and within Region are in alphabetical order by negotiating situation.

7 Table 8: Teacher Salary Grid Index, 1975-76 to 1983-84 with 1975-76 = 100

The calculation of the index value within each negotiating situation involves the computation of the average weighted on-grid salary for each of the years from 1975-76 to 1983-84 employing in each instance the on-grid distribution of teachers as of January 31, 1976. The average weighted on-grid salary figures for years subsequent to 1975-76 are contrasted with the base year and the percent increase determined. This approach is similar to that adopted by Statistics Canada in constructing indicies such as the Consumer Price and Education Price. The theory of using a constant grid distribution is that it removes the impact of changes in quality (qualificatior and experience) and quantity (number of staff).

---

tables are available on a request basis which indicate for each negotiating situation for each year from 1975-76 to 1982-83 the following: 1) weighted average years of experience recognized for salary purposes, 2) weighted average category-group placement, 3) provincial and regional weighted averages for both experience and qualifications, and 4) averages for each negotiating situation expressed as a percentage of both the provincial and regional averages.

Reference: "Education Price Index, Elementary - Secondary Level: Methodological Report" (Statistics Canada - Education, Science and Cultural Division: Ottawa, Ontario. December, 1979).

8 Table 9: Average Increase in Ontario Base Wage Rates in First 12 Months of Collective Agreements Covering 200 or More Employees (calendar year basis)

a) both percent and cents-per-hour increases in base wage rates for settlements during each of the calendar years 1976 to 1983.

Table 10: Average Increases in Ontario Teacher Salary Grids by Agreement Type [agreement year (September-August) basis]

a) both percent and dollar increases in teacher salary grids during each of the agreement years from 1975-76 to 1983-84.

9 Table 11: Elementary, Secondary and R.C.S.S. Annualized Category A4/Group 4 Maximum Comparisons, 1975-76 to 1983-84

a) for Elementary:

- Category A4 annualized maximum salary,
- number of years to reach maximum,
- percent Elementary Category A4 maximum is of counterpart Secondary panel's Group 4 maximum salary,
- average amount of any cost-of-living allowance paid per recipient (not necessarily those at Category A4 maximum).

b) for R.C.S.S.:

- Category A4 annualized maximum salary,
- number of years to reach maximum,
- percent R.C.S.S. Category A4 maximum is of counterpart Elementary panel's Category A4 maximum salary,
- average amount of any cost-of-living allowance paid per recipient (not necessarily those at Category A4 maximum).

c) for Secondary:

- Group A4 annualized maximum salary,
- number of years to reach maximum,
- average amount of any cost-of-living allowance paid per recipient (not necessarily those at Group A4 maximum).

d) for those R.C.S.S. boards which encompass more than one Elementary situation, the following school boards have been paired for comparison purposes:

R.C.S.S. Board	Elementary Counterpart
Bruce-Grey	Grey County Board of Education
Dufferin-Peel	Dufferin County Board of Education
Frontenac, Lennox & Addington	Frontenac County Board of Education
Haldimand-Norfolk	Haldimand Board of Education
Hamilton-Wentworth	Wentworth County Board of Education
Hastings-Prince Edward	Hastings County Board of Education
Huron-Perth	Huron County Board of Education
Lanark, Leeds & Grenville	Lanark County Board of Education
London-Middlesex	Middlesex County Board of Education
Metropolitan Separate	Board of Education for the Borough of East York
North of Superior	Lake Superior Board of Education
Welland	Niagara South Board of Education

Data Sources

The sources for the data contained in this publication are indicated below:

Base Wage Rates Ontario	Research Branch, Ontario Ministry of Labour. Toronto, Ontario. "Wage Developments in Collective Bargaining Settlements in Ontario" and Ministry print-outs.

Teacher salary data are presented for the two hundred (200) major negotiating situations (76 Elementary panels - Boards of Education, 76 Secondary panels - Boards of Education and 48 County/District Roman Catholic Separate School Boards). Excluded from the analysis were the following Boards: District School Area, Protestant Separate School, Isolate Roman Catholic Separate School, Canadian Forces Base, Hospital and Treatment Centre and Ontario Hydro Centre.

A brief overview of the concept and construction of the Consumer Price Index can be found in Appendix A and of the Industrial Composite (Average Weekly Earnings) in Appendix B.

References within the Monograph to "region" or "regional" refer to the six (6) geographic areas established by the Ministry of Education for administrative purposes in 1978. Appendix C provides a listing of the school boards located within each region.

Appendix D contains an explanation of the procedures employed to obtain information concerning university recruiting rates.

Finally, a definition for the base wage rate and its method of calculation is outlined in Appendix E.

PART 4

AVERAGE WEEKLY EARNINGS (INDUSTRIAL COMPOSITE)

ONTARIO COUNTIES/DISTRICTS

Examination of the statistics in this Part will indicate, in some instances, sizeable differences when the September over September figures are contrasted with the September to August average over the September to August average for respective years.

Although no caveats from Statistics Canada accompany these data, it is assumed that the 12-month averages represent a more accurate reflection of changes over time in weekly earnings.

PART 5

SALARY AND TOTAL COMPENSATION COMPARISONS BETWEEN INDIVIDUAL NEGOTIATING SITUATIONS AND PROVINCIAL AVERAGES, 1975-76 TO 1983-84

ABBREVIATIONS EMPLOYED IN FOLLOWING TABLE	EXPLANATION
# OF CASES	The number of negotiating situations available for analysis; only situations with a Category A4 or Group 4 maximum salary figure in effect for an entire agreement year have been included
AVG. AMT. OF COLA	Average cost-of-living allowance paid to all recipients; not necessarily those at Category A4-Group 4 maximum.
% <1ST YR = 100>	The percentage increase in the salary figure during the period reported having set the value of the salary figure for the first year available equal to 100 (for example: a value of 112.3 indicates an increase of 12.3% during the period reported).

Note: Total compensation figures for 1975-76 do not include employee benefits.

PART 6

SALARY AND TOTAL COMPENSATION COMPARISONS BETWEEN INDIVIDUAL NEGOTIATING SITUATIONS AND REGIONAL AVERAGES, 1975-76 TO 1983-84

ABBREVIATIONS EMPLOYED IN FOLLOWING TABLE	EXPLANATION
# OF CASES	The number of negotiating situations available for analysis; only situations with a Category A4 or Group 4 maximum salary figure in effect for an entire agreement year have been included
AVG. AMT. OF COLA	Average cost-of-living allowance paid to all recipients; not necessarily those at Category A4-Group 4 maximum.
% <1ST YR = 100>	The percentage increase in the salary figure during the period reported having set the value of the salary figure for the first year available equal to 100 (for example: a value of 112.3 indicates an increase of 12.3% during the period reported).

Note: Total compensation figures for 1975-76 do not include employee benefits.

APPENDIX A

CONSUMER PRICE INDEX (C.P.I.)

Each month, the Consumer Prices Section of the Prices Division of Statistics Canada, calculates and publishes in *The Consumer Price Index* (Catalogue 62-001), what is termed the Consumer Price Index for Canada and each of 15 Regional Cities. This index measures the change over time in the cost of purchasing a "basket" of goods and services. The "basket" of goods and services is of unchanging or equivalent quantity and quality for defined periods and consists of items most of which fall within the following main components: food; housing; clothing; transportation; health; and personal care; recreation, education and reading; tobacco and alcohol.

The Consumer Price Index represents a weighted average of the items taken into consideration in this calculation. The weights (relative importance) applied to each item have been based upon surveys reflecting family expenditure patterns as indicated below:

CPI Calculation Period	Weights Based Upon Family Expenditure Pattern for
January, 1961 to April, 1973	1957
May, 1973 to September, 1978	1967
October, 1978 to March, 1982	1974
April, 1982 to present	1978

The families analyzed in the determination of weights represent a broad, but specific group which had the following caracteristics: living in private households in cities with over 30,000 population; ranging in size from two (2) to six (6) persons; having a range in annual income of $4,000 to $12,000. Commencing in October 1978, the population coverage was altered to include all families and unattached individuals living in private households in cities with over 30,000 population thereby eliminating family size and income parameters.

When reference is made to the Consumer Price Index, unless otherwise noted, the index value in question is what Statistics Canada entitles "All Items". The "All Items" index value has been based upon the following number of items in the "basket" of goods and services:

Period	Number of Items in "Basket"
Until September, 1979	325
October, 1978 to March, 1982	375
April, 1982 to present	325

It is this monthly "All Items" figure, not adjusted for seasonal variation, that has been employed in this publication.

Although not reported, it should be noted that values for the Consumer Price Index for the regional cities (three of which are located in Ontario), do not in any way indicate whether price levels are higher or lower in one city than in another. Rather, the C.P.I. values measure, within each city, the change in consumer prices from some base year to subsequent time periods.

APPENDIX B
INDUSTRIAL COMPOSITE

Each month, the Monthly Employment, Payrolls and Labour Income Section of the Labour Division of Statistics Canada, through a mail survey, solicits and collects information on weekly earnings. The Industrial Composite is a dollar value which represents a weighted average of weekly earnings based upon responses to the survey.

In general, the survey covers companies having 20 or more employees in any month of the year and includes employees receiving both wages and salaries. Industries not covered by the survey are as follows: agriculture, fishing and trapping, education and related services, religious organizations, private households, public administration and defense.

Information regarding earnings is reported on a national, regional, provincial and selected urban area bases. All establishments reporting information are assigned to an industrial class on the basis of their principal activity. The industrial classes include the following: manufacturing (durable and non-durable goods); construction; transportation; communication and other utilities; trade; finance; insurance and real estate; service.

Earnings represent gross pay for the week before deductions. Gross pay includes the following: salaries, straight time wages, piecework and regular commission earnings, regularly paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay during the survey week.

The following are not included in gross pay: employers' contributions to unemployment insurance, medical plans, Workman's Compensation, other welfare plans, nor does it include the cost of equipment, value of room and board, compensation in kind, travelling expenses, retirement gratuities, director's fees or bonuses paid at irregular or infrequent intervals.

Modified in April of 1983, the monthly survey presently includes firms with less than 20 employees as well as those in the education, health and welfare and public administration areas.

The Industrial Composite is published by Statistics Canada on a monthly basis in a catalogue entitled Employment Earnings and Hours (prior to 1971, the Industrial Composite appeared in a catalogue entitled Employment and Average Weekly Wages and Salaries).

In addition to the published data, Statistics Canada can make available an Industrial Composite figure on a County/District basis for Ontario. These monthly figures have also been employed in this publication. Calculation of the Industrial Composite on a County/District basis was discontinued subsequent to March, 1983.

APPENDIX D

ACTUAL RECRUITING RATES FOR UNIVERSITY AND COMMUNITY COLLEGE GRADUATES

The above report is an annual undertaking of the Pay Research Bureau which is part of the Public Service Staff Relations Board. This Board administers the legislation which governs the bargaining process between the Government of Canada and its employees; the Public Service Staff Relations Act.

The report is prepared from a survey of public and private sector employers situated in most areas of the country. For the 1982 report, data were sought from ninety (90) organizations.

The "rates" are based upon graduates actually hired and include cost of living adjustments where applicable. Other types of compensation such as bonuses, isolation pay, overtime earnings, shift differentials and other employee benefits are not included.

The mean rate, taken from the reports and used in this Monograph, is obtained by multiplying the number of graduates hired at each rate by the rate and dividing the sum of the products by the total number of graduates hired.

Those interested in obtaining a copy of the report(s) should contact:

Pay Research Bureau
140 O'Connor Street
P.O. Box 1525, Station "B"
Ottawa, Ontario
K1P 5V2

APPENDIX E

BASE RATE

The base rate is defined as the lowest paid classification used for qualified workers in the bargaining unit. In the case of Ontario teachers, this would be someone in Category A1 or Group 1 with two years teaching experience.

Changes in the base rate (both in percentage and monetary terms) are calculated in the following manner:

1. the base rates being compared are weighted by the total number of employees in the bargaining unit,

2. guaranteed amounts payable under cost-of-living clauses are added to the base rate. In addition, any salary adjustments, e.g. fold-ins, that are made at the end of an expiring agreement are added and this adjusted base rate is used in making calculations,

3. base rate increases are calculated from one end rate to another. Annualized rates are not used.

The Ministry of Labour, Ontario publishes base rate information for collective agreements covering 200 or more employees. In reporting base rate changes, agreements are categorized as to their duration on the following basis: 1-17 months as a year; 18-29 months as 2 years; 30 months or more as 3 years.
